EDUCATION

CHANDIGARH UNIVERSITY | MOHALI, PUNJAB

Bachelor of Engineering in Computer Science

2020 - 2024

CGPA: 7.92/10.0

PT. DDUM COLLEGE BAIRGANIA | SIATMARHI, BIHAR

Intermediate Board - BSEB, Science (PCM)

2017 - 2019

Percentage: 83.20/100.0

SKILLS

Technical: C++, PHP, Laravel, Filament, AWS EC2, S3, AWS Textract, JavaScript, MYSQL, OOPs, HTML/CSS, jQuery, Ajax

Tools: Git/GitHub, VS Code, Linux

EXPERIENCE

Software Developer — HyScaler, Bhubaneshwar

November 2024 - Present

- Developed and deployed a chatbot using **AWS Augmented AI**, automating responses for the Artisan team, reducing manual workload by **60%**.
- Optimized API performance by implementing background jobs for computational tasks, improving response time by **70%**.
- Designed and maintained an admin panel with role-based access control (**RBAC**) for the Artisan project, enhancing system security and reducing unauthorized access incidents by **85%**.
- Utilized Amazon Textract to extract and summarize PDF text, reducing document length by **60%** while maintaining key contextual information.

PROJECTS

BOOKNSTAY [Room Booking]

 October 2024

- Implemented robust CRUD operations (Create, Read, Update, Delete) for bookings using Laravel, **enhancing efficient management and supporting the scalability** of the booking system for future growth.
- Integrated **search and filtering functionalities by date, room number, and room type**, allowing quick retrieval of specific reservations and improving admin productivity in managing large datasets.
- Automated email confirmations** upon booking, improving communication speed with customers and reducing manual intervention, which streamlined booking operations and enhanced the overall customer experience.
- Tech Used: PHP | LARAVEL | FILAMENT | HTML | CSS | MYSQL

SORTING VISUALIZER | 

 August 2022

- Developed an interactive tool to **visually demonstrate the steps involved in various sorting algorithms**, enhancing user understanding of algorithmic processes.
- Integrated **graphical visualizations** that dynamically display each step of the selected sorting algorithm on randomly generated arrays for a clear and engaging learning experience.
- Implemented **user customization options**, allowing adjustment of array size and visualization speed, and supported multiple sorting algorithms, including **Merge Sort, Quick Sort, Bubble Sort, Insertion Sort, and Selection Sort**.
- Tech Used: HTML | CSS | JS | SORTING ALGORITHMS

ACHIEVEMENTS

- Achieved a 3-star rating on **CodeChef** with a highest rating of 1610 
- Solved 140+ problems on **LeetCode** 
- Completed 100+ problems on **GeeksforGeeks**
